The parties also recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by District if the Work is not completed on time. Accordingly, instead of

requiring any such proof, District and Contractor agree that as liquidated damages for delay (but not as a penalty):

1. Substantial Completion: Contractor shall pay District \$500 for each working day that expires after the time (as duly adjusted pursuant to the Contract) specified in Paragraph 4.02.A above for Substantial Completion until the Work is substantially complete.

No.	Question	Answer
1	Have haul routes been pre-determined, and is there a way to exit out through the North side of the project?	No, the contractor can develop haul routes by utilizing the levee crown and landside berms as needed to facilitate construction. The nearest access to the project from the North is 3 Miles away at Hwy 113.
2	Does the access along the levee crown need to be maintained throughout construction during non-working hours?	Yes, the levee crown needs to remain clear to allow access through the site during non-working hours.
3	Will vehicles / equipment need containment measures for overnight parking?	Drip pans or absorbant materials will be placed under vehicles when not in use. Stationary equipment such as motors, pumps generators, and welders shall be positioned over drip pans and secondary containment, as nessecary. Refer to CDFW Measure 2.29 and 2.36.

5	In regard to the rock stockpiles, what size rock can be left behind and amended into the surrounding soils to restore this area to pre-construction conditions?	The rock left behind shall be less that 3-inches and should be incorporated into the surrounding soils to eliminate rock pockets. The surface left behind shall be able to be maintained using disc's and/or mowers.
6	Can mowers be used to clear vegetation in the project limits?	Yes, provided fire protection measures are in place.
7	Does the in-channel vegetation get sprayed or is it controlled by some other measure?	No, the in-channel vegetation is not controlled.

KSN recommends using the agricultural ditch owned by the District. The ditch directly adjacent to the the ridge cut levee, north of the staging area. Refer to the "Source Water Location" figure attached to this addendum.
10	Is there water quality testing?	Yes, the effort is being preformed by the District's team.
